HEADQUARTERS OF THE ARMY,
MEXICO, Dec. 29, 1847.

THE commanders of the several regiments, and the chiefs of the several staff corps and departments, will furnish, as soon as practicable, a list of the officers of their respective regiments, corps or departments that marched with this army from Puebla, between the 7th and 10th of August last specifying, under the head of Remarks, opposite the name of each officer, where such officer was employed on the 19th and 20th of August, 8th of September, and 12th, 13th and 14th of September.

By command of Major-General SCOTT:

H. L. SCOTT, A. A. A. G.

The foregoing list of officers, compiled from the lists furnished in accordance with the above "circular," is now published for general information.

By command of Major-General SCOTT:

H. L. SCOTT, A. A. A. G.

ADJUTANT GENERAL'S OFFICE,
Mexico, February 7, 1848.

EXTRACT

FROM THE REPORT OF MAJOR-GENERAL WINFIELD SCOTT, DATED NATIONAL PALACE, MEXICO, SEPTEMBER 18TH, 1847.

Leaving as we all feared, inadequate garrisons at Vera Cruz, Perote, and Puebla—with much larger hospitals—and being obliged, most reluctantly, from the same cause—general paucity of numbers—to abandon Jalapa—we marched [August 7, 10,] from Puebla, with only 10,738 rank and file. This number includes the garrison of Jalapa, and the 2,429 men brought up by Brig. Gen. Pierce, August 6th.

At Contreras, Churubusco, &c, (August 20,) we had but 8497 men engaged—after deducting the garrison of San Augustin (our general depot) the intermediate sick and the dead—at the Molinos del Rey (Sept. 8,) but three brigades, with some cavalry and artillery—making in all 3251 men—were in the battle,—in the two days—Sept. 12 and 13—our whole operating force—after deducting again the recent killed, wounded and sick, together with the garrison of Miscoac, (the then general depot) and that of Tacubaya, was but 7180, and, finally, after deducting the new garrison of Chapultepec, with the killed and wounded of the two days, we took possession (Sept. 14, of this great capital with less than 6000 men! and I re-assert, upon accumulated and unquestionable evidence, that, in not one of these conflicts, was this army opposed by fewer than three and a half times its numbers—in several of them—by a yet greater excess.

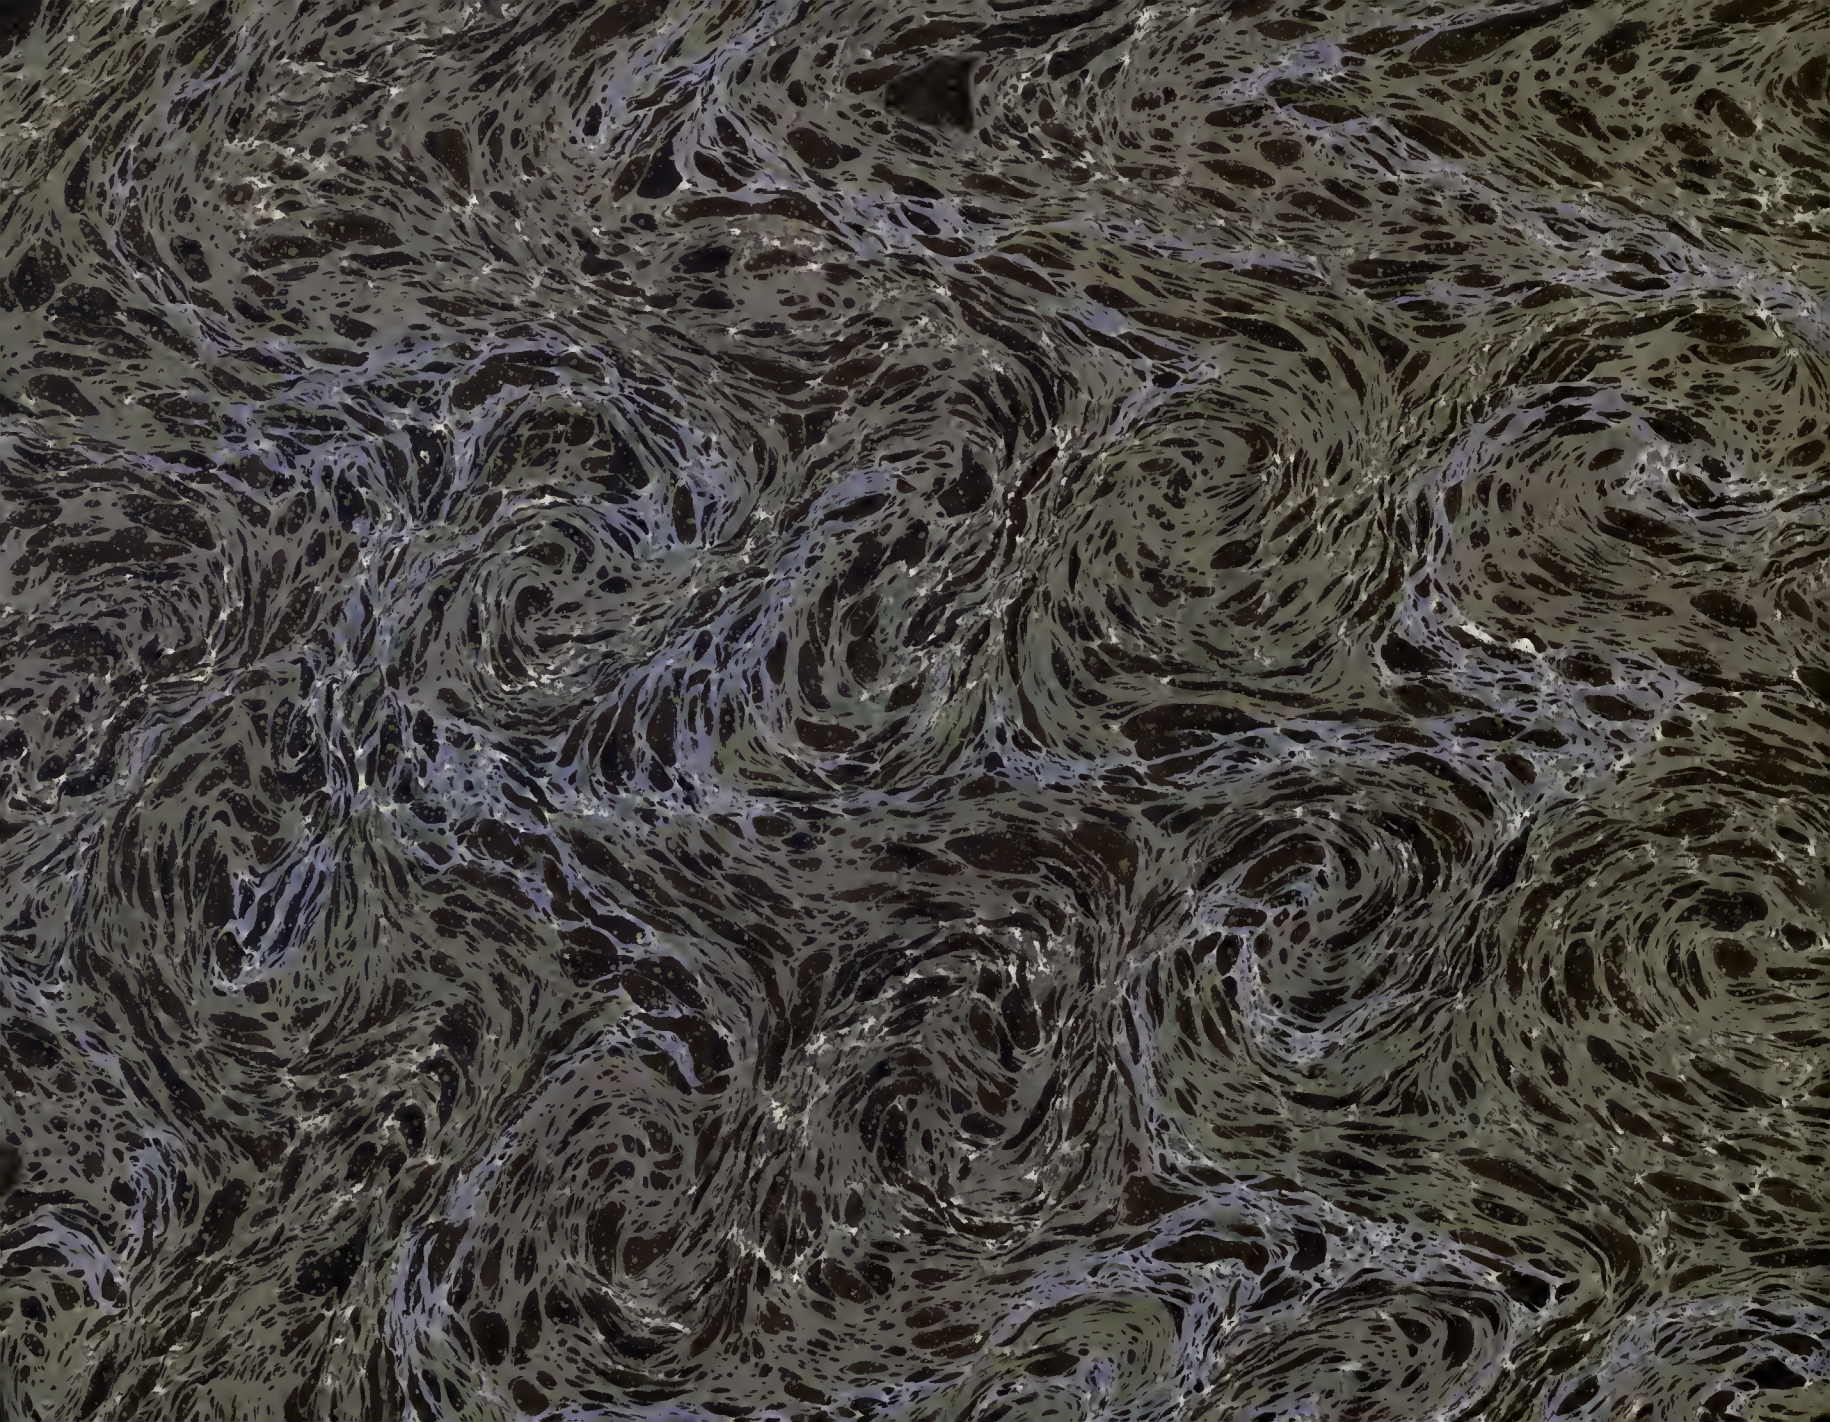
I recapitulate our losses since we arrived in the basin of Mexico.

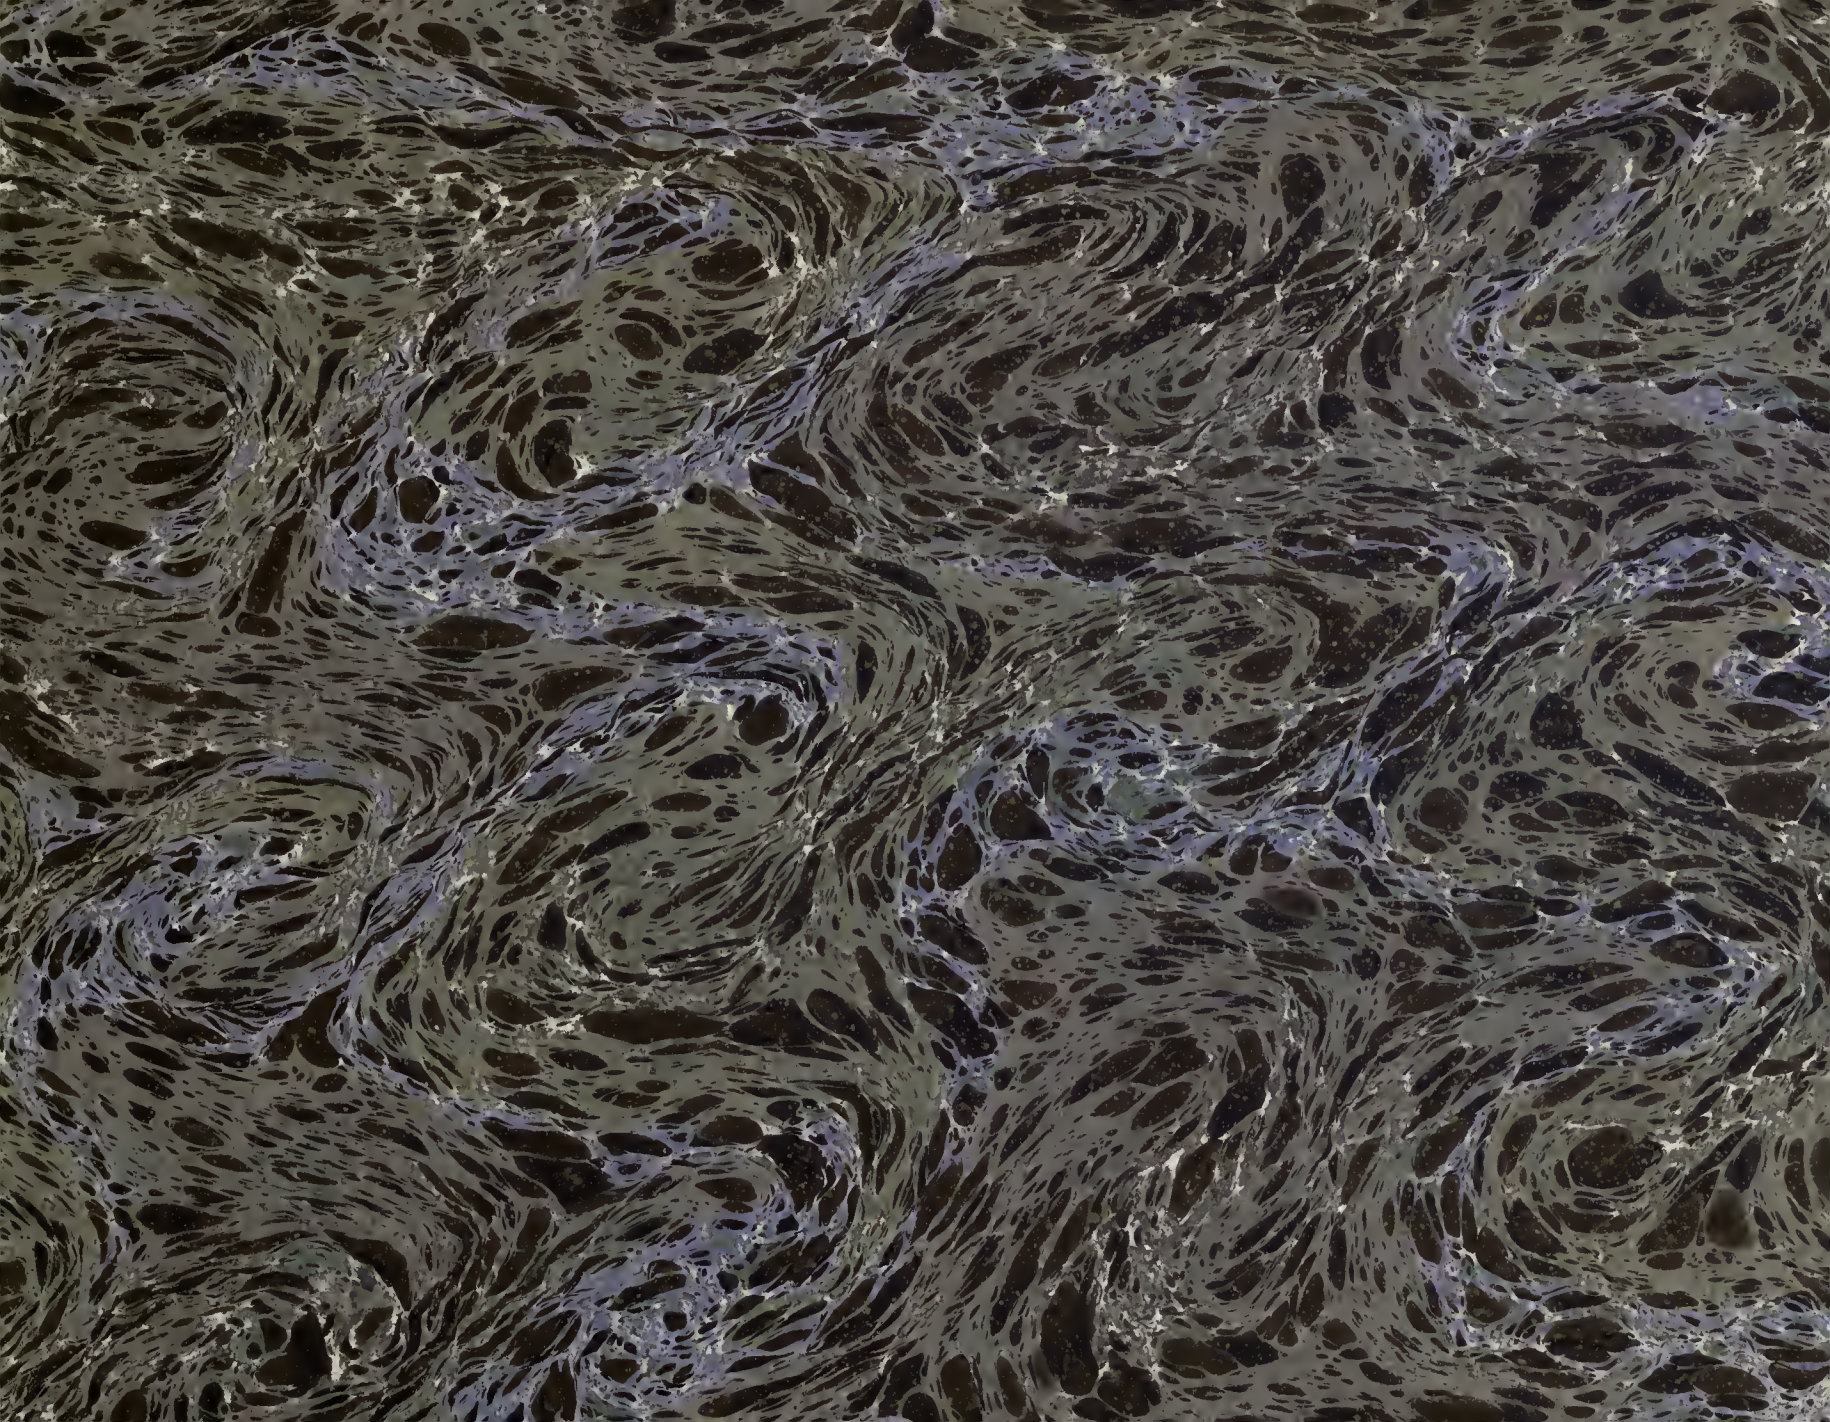
August 19, 20.—Killed, 137, including 14 officers; wounded, 877, including 62 officers; missing, probably killed. 38 rank and file—total, 1052.

September 8.—Killed, 116, including 9 officers; wounded, 665, including 49 officers; missing, 18 rank and file—total 799.

September 12, 13, 14.—Killed, 130, including 10 officers; wounded, 703, including 68 officers; missing, 29 rank and file—total, 862.

Grand total of losses. 2713, including 212 officers.

On the other hand this small force has beaten, on the same occasions—in view of their Capital—the whole Mexican army, of (at the beginning) thirty-odd thousand men—posted, always, in chosen positions—behind entrenchment; or more formidable defences of nature and art—killed or wounded of that number more than 7000 officers and men;—taken 3730 prisoners, one-seventh officers, including thirteen generals, of whom three had been Presidents of this republic; captured more than twenty colors and standards, seventy-five pieces of ordnance, besides fifty-seven wall pieces, 20,000 small arms, an immense quantity of shots, shells, powder, &c.




Of that army once so formidable in numbers, appointments, artillery, &c., twenty-odd thousand have disbanded themselves in dispair—leaving, as is known, not more than three fragments—the largest about 2500—now wandering in different directions, without magazines or a military chest, and living at *free quarters* upon their own people.
